

# Reiki Level III Certificate Course

## The Inward Journey

The Reiki III attunement and training gives your Reiki greater strength and capacity. It also helps you to connect with your inner Self more deeply. *There is a pre-requisite of Reiki Level I and II training and practise before you can participate in this training.*

Reiki III teaches you the spiritual symbol which gives your Reiki much greater depth and power. This level of Reiki is where you connect more fully with your spiritual being and develop oneness with the energy. It is the inward Reiki journey where the focus is much more on developing your connection with Source.

Specific meditations and symbol usage will be taught in addition to the attunement.
